

## **Sudden Oak Death Online Resources**

(3/17/2005)

<http://www.suddenoakdeath.org/> - The California Oak Mortality Task Force (COMTF) website. Contains recent news, links to distribution maps, general information on Sudden Oak Death, publications and educational materials, links to regulatory agency and other Sudden Oak Death websites, and information and meeting minutes for COMTF. Excellent “one stop shopping” for Sudden Oak Death information.

<http://cemarlin.ucdavis.edu/index2.html> - The UCCE Marin website for Sudden Oak Death information. Contains list of hosts and symptoms with color photos; background ecology; recent news in the press; management information and links to other Sudden Oak Death resources.

<http://kellylab.berkeley.edu/SODmonitoring/> - Detailed monitoring information on Sudden Oak Death, and a system to report suspected infected trees online (OakMapper).

<http://danr.ucop.edu/ihrmp/> - Integrated Hardwood Range Management Program website. More information on Sudden Oak Death, and general information on oaks and oak woodlands.

<http://groups.ucanr.org/SODBusters/> - Project dealing with disposal and utilization of Sudden Oak Death-infected plant material, information on Marin Co. collection yard, and information on a second yard for Santa Cruz/Big Sur.

<http://pi.cdfa.ca.gov/pqm/manual/455.htm/> - State restrictions regarding plant parts from known hosts, and regulatory sampling procedures.

<http://ceris.purdue.edu/napis/pests/sod/index.html> - Cooperative Agriculture Pest Survey program.

[http://www.cnr.berkeley.edu/forestry/curr\\_proj/sudden.html](http://www.cnr.berkeley.edu/forestry/curr_proj/sudden.html) - Sudden Oak Death research through the UC Berkeley Center for Forestry.
